DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 88 (in part), drawn to compounds of formula II, classified in class 560/1+ or 568/700+.
 - II. Claim 88 (in part), drawn to compounds of formula III, classified in class 560/1+ or 568/700+.
 - III. Claim 88 (in part), drawn to compounds of formula IV, classified in class 549, subclass 13+.
 - IV. Claim 88 (in part), drawn to compounds of formula V, classified in class 549, subclass 29+.
 - V. Claim 88 (in part), drawn to compounds of formulae VI and VII, classified in class 560/1+ or 568/700+.
 - VII. Claims 88 (in part) and 89, drawn to compounds of formula VIII, classified in class 560/1+ or 568/700+.
2. The inventions are distinct, each from the other because of the following reasons:
Inventions I-VI are drawn to different structural compounds.

3. Because these inventions are distinct for the reasons given above and the search required for one Group is not required for the other Groups, restriction for examination purposes as indicated is proper.

4. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, from under the elected Group, even though this requirement is traversed.

5. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

6. A telephone call was made to Mr. Bruce Gray on July 24, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
